Review of Spring and Summer Goods

CONTAINS many illustrations of goods especially selected for Spring and Summer use; among them Baby Carriages, Hammocks, Seaside Toys, outdoor Games, and Books, etc.

¶ We invite your perusal, and wish to emphasize that we do not claim this catalogue to be a complete list of our large varieties, but have enumerated as well as illustrated as many as the space will permit. New goods are constantly added and we respectfully solicit your inquiry regarding Novelties which you may be unable to find therein.

¶ We feel confident that our departure from issuing a condensed price-list, and placing before our patrons this comprehensive catalogue, may be appreciated, and we trust that this copy may be used as a constant reference book, whether goods are purchased personally, or whether ordered by letter.

¶ General Toy Catalogue issued separately, and will be mailed on request.

Told to the Children Series

This series, now in its sixth year, has more than fulfilled the promise of the publishers when they announced the first volumes. Children want and clamor for a "true story," and nothing fills this childish demand so fully and thoroughly as the retelling of a classic. In this little series every volume is a retold classic, charmingly simple, yet appreciative and convincing.

Every volume printed on pure white rag paper, with bold clear type, and illustrated with eight full-page colored plates by well-known artists. Cloth covers with colored siding. Size 5x6¼. **50c. per volume.**
